Reverse Aging To Feel Decades Younger!

"Makes me feel 20 to 30 years younger!"†
-B.W.

Ultra H-3 | Advanced Anti-Aging Formula
As is true with most great discoveries, procaine, the primary active ingredient in Ultra H-3, was discovered by accident! In 1949, Dr. Aslan began to use procaine for its anesthetic properties with her elderly patients at the National Geriatric Institute in Bucharest, Romania. To her amazement, Aslan's patients not only became pain-free, but they also demonstrated dramatic mental and physical improvements.

Aslan believed that procaine worked its "magic" by repairing old and damaged cell membranes so they could absorb nutrients more efficiently.

Her observations prompted her to organize clinical trials to study the impact of procaine. With more than 300 doctors and 150 clinics participating, these preliminary trials included over 15,000 patients between the ages of 38 and 62. Researchers discovered that about 70 percent of Aslan's patients never got sick, the death rate from the Aslan group was five times lower than the placebo group, patients were less prone to infections and joint mobility was enhanced in over 50 percent of the cases. They also observed that mood, fatigue and energy levels, headaches, circulation, and heart, bone and joint health were improved. Even "liver spots" were said to disappear over time and patients' original hair color returned.

Most people see results within 3 weeks to 3 months.

Satisfied Ultra H-3 customers report...

- A better sense of overall wellbeing, enhanced mental clarity and more restful sleep*
- Improved energy levels*
- More vibrant skin and hair*
- Increased libido*
- Stronger nails*
- Relief from joint aches and pains*
- Better athletic recovery and endurance*

Hundreds of clinical studies have shown that procaine HCl helps to balance buildup of the critical enzyme monoamine oxidase (MAO). This in turn enhances mental clarity, concentration, energy and an overall feeling of wellbeing.
Today’s world leaves cells exposed to damage every day. Damaged cells are incapable of expelling toxins and receiving life-supporting nutrients that come from food and vitamins. As the cells weaken and die, the body manifests symptoms of various diseases based on where the cells are located. Ultra H-3 can be absorbed by damaged cell membranes to help restore the proper electrical potential between the outside and inside of the cell. This enables cells to rebuild from the inside out, helping the body to regain total health from the cellular level.

The key to making Ultra H-3 so effective is the way the procaine-based nutrients are complexed. Each tablet of Ultra H-3 contains 100 mg of procaine hydrochloride. As it breaks down, it releases its natural constituents of para-aminobenzoic acid (PABA) and diethylaminoethanol (DEAE). PABA is a stimulant to the beneficial intestinal bacteria that aid in the production of vitamins K and B1 and folic acid. DEAE is involved in the production of acetylcholine, vital to the nerve and brain synapses. Both of these ingredients act like natural muscle relaxants and possess antihistamine properties.

In addition to the procaine itself, Ultra H-3 contains a matrix of ascorbic acid, citric acid, folic acid, niacin, biotin and magnesium, which helps to protect the procaine from breaking down too quickly in the system—all in a base of Ginkgo biloba and bilberry extracts to optimize circulation throughout the body (including the brain).

Quality-controlled by no less than four separate patents, Ultra H-3 is considered 100 percent bioavailable. It lasts about fifteen times longer than the original product and is about six times stronger.*

*These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.
Safe and non-toxic, the Ultra H-3 formula has been effectively used for over 60 years.*

**What you need to know...**

**Is procaine HCl an anesthetic?**
When taken orally, procaine HCl acts as a vitamin molecule that absorbs into the bloodstream, not the tissues. Ultra H-3’s patented formula stays in the body six times longer for maximum absorption.*

**Is Ultra H-3 a hormone-based product?**
Ultra H-3 is not a hormone-based product like Human Growth Hormone (HGH), which should only be administered under a physician’s care.

**Can I take Ultra H-3 with food?**
While most effective and best absorbed when taken 20 minutes before or 45 minutes after meals, Ultra H-3 can also be taken with food when needed.

Ultra H-3 is primarily comprised of procaine HCl derived from two natural vitamin-like compounds:

- **PABA** (para-aminobenzoic acid)
- **DEAE** (diethylaminoethanol)

**What are the side effects?**
**Is Ultra H-3 safe?**
While there are no known side effects of long-term use, it is important to inform your physician before taking this dietary supplement, especially if you are pregnant or nursing, taking prescription medications or facing impending surgical procedures. If you experience any adverse reactions, discontinue use immediately.

**What age group is Ultra H-3 designed for?**
As it helps to regenerate the body at the cellular level, Ultra H-3 works well with adults of all ages. Customers in their 20s, 30s and 40s have especially noticed an enhanced sense of wellbeing and a more positive outlook. Customers in their 50s through 80s find dramatic improvements in energy levels, joint pain, mobility and memory.*
Can I give Ultra H-3 to my pets?
Some customers have reported success when giving Ultra H-3 to aging pets. Reduce dosage according to weight: 1/4 to 1 tablet daily.

Are there any medications that should not be combined with Ultra H-3 or require special instruction?
Before taking Ultra H-3 along with medications or pre-existing health conditions, please consult with your physician or health care professional. People who are prescribed Parkinson’s medication should take Ultra H-3 three hours apart from their medication. Due to the small amount of Ginkgo biloba in the formula, there may also be slight contraindications for individuals taking blood thinners, or for those with epilepsy or blood circulation disorders.

How much should I take?
While the general recommended dosage is one to two tablets twice daily, some individuals are more sensitive than others. Start with one tablet twice daily and increase as needed. In some cases, there have been more sensitive individuals who have reported taking one tablet daily, while others may take more than four.

"With Ultra H-3 you can experience relief from aches and pains, better skin, faster healing and enhanced hair and nail growth—while sleeping better through the night, waking up alert and ready to go! Like a powerful but gentle herb, Ultra H-3 seems to provide whatever your body needs. It’s a modern day fountain of youth!"

New York Times best-selling author, Ann Louise Gittleman, PhD, CNS

The incredible benefits speak for themselves...

Magnified memory!

“I spend my days as a full-time editor and volunteer marketing coordinator. Ultra H-3 keeps my mind sharp and flexible for whatever needs to be done. At 60, my memory is fantastic and I give most of the credit to Ultra H-3!"†

-Kim C.

“Before taking Ultra H-3 my fingers were so swollen, crooked and painful. I could not close my hand. I have been taking Ultra H-3 for two years now, and my hands are now looking more normal. My fingers are almost straight! I can now close my hand and have less pain. Ultra H-3 really works!"†

-Steven B.

Relief from MS symptoms!

“I read about Ultra H-3 and wanted to try it because I have had MS for over 16 years. When I started taking the product, I was not walking very well and my world was crumbling fast. After about two weeks, I noticed that my walking was more stable and things in my body were starting to work better...I thank Ultra H-3 for making a big difference in my life!"†

-M.N.

"I am able to think more clearly and feel more able to cope with daily stress."†
- Teresa P.

"I'm a believer! No gray hair!"
“Ultra H-3 has changed my life! I love this product, I have more energy, more sex drive and I do think it aids in anti aging! I started taking it over 20 years ago and will never stop! I am a believer!”†
- Juli S.

No more bathroom wake-ups!
“After just a few short weeks of taking Ultra H-3, I feel and sleep a lot better. No more getting up several times a night to go to the bathroom. My hair is thickening up and I think the gray is starting to fade. My nails are growing and the splitting problem has gone away!”†
- Larry G.

"I have been using Ultra H-3 consistently for about 12 years. I give it due credit for keeping my hair its original color and my face texture smooth and youthful.”†
- Cindy H.

"After an auto accident 18 years ago, I haven't been right since. My legs and rear ached when I got up each day and it was getting worse. I would cry out in pain and had to go to the doctor for shots every three months. I took Ultra H-3 for two days and on the third morning, there was no more pain in my legs and just slight pain on my rear. Ultra H-3 is no joke!”†
- Doris G.

"I have been using Ultra H-3 consistently for about 12 years. I give it due credit for keeping my hair its original color and my face texture smooth and youthful.”†
- Cindy H.
"Ultra H-3 has given me lots of added energy. I don’t get tired during the day and I have a very demanding job. Also, for several months before taking it I had terrible pain in the back of my knee. Ultra H-3 took it away almost immediately!"†

-Marilyn (76 yr. old) and husband, Alton (82 yr. old)

20 years younger & libido is back!

"After five months I have more energy and stamina than I’ve had in 20 years. My libido has returned from a long hiatus and my white hair is turning brown again. I can’t wait to see how I feel and what my hair color will be like in a year’s time. Best money I have spent in a while!"†

-Max

Joint pain...GONE!

"Our pain level in our joints seem to be much less, especially in our hands. We feel it really helps!"†

-Marilyn (76 yr. old) and husband, Alton (82 yr. old)
Finally off anti-depressants!

“I was trying to get off an anti-depressant, which was very hard after nine years. Ultra H-3 supported my system so I could finally handle the slow withdrawal from the medication. I have been taking it ever since and I love it! It helps my mood, energy and feeling of wellbeing!”†

-Diana

Total mood makeover!

“I have been using Ultra H-3 for several months now. I jokingly refer to it as my 'don't kill yourself or anyone else' pill. I didn't really believe it could make such a difference, but it does. My energy is so much better, but my mental outlook is the biggest improvement. I don’t know what happened, but I found myself quitting on life. I just didn't want to do anything—paint, garden, etc. I am 49 and suspect hormone imbalance. Now I am back to normal with even more energy. I recommend it to anyone with low energy or depression. This is a great product. You won't be sorry you tried it.”†

-T.S.

“My mind is clear and I am happy!”†

-Aimee J.

“I had a one year history of daily headaches and nothing helped long term so I decided to try Ultra H-3. I was pleasantly surprised that after just two days my headaches stopped. I have had only three in the last three months and am absolutely thrilled to not wake up with one every day. It has really improved my quality of life.”†

-Debbie C.

Recommended dosage:
Adults take one to two (1-2) tablets twice daily with a glass of water, 1 hour before or 2 hours after eating or as directed by a health care professional. Dosage may be increased for certain health conditions. To ensure constant levels, doses should be taken 6-8 hours apart.

Additional tips:

What to avoid
Avoid all forms of sugar, artificial sweeteners, and hydrogenated oils like margarine, vegetable shortening and commercial vegetable oils.

Balanced diet
Eat a balanced diet of quality proteins, unprocessed carbohydrates and healthy fats.

Stay replenished
Drink at least 8-10 glasses of filtered water per day to help increase the cleansing and removal of metabolic wastes from your system.

Ultra H-3 ingredients:
Procaine HCl, Ascorbic Acid, Citric Acid, Niacin, Folic Acid, Biotin, Potassium, Magnesium in a base of standardized extracts of Ginkgo biloba and Bilberry.
